I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Raliway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquishalt, and that the line shall traverse the entire outh-Eastern Coast of the Island from Johnson Straits

Usuer the Terms of Union with the Dominion, it is the
province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the
people of Eichish Columbia dees in to be best suited to
their varied industrial interests, during the next ten
years. Should, however, the question come before the
Bominion Farliament, I, shall bedienvoy fo have the
tariff so framed as to meet with the concurrence of the
agricultural, mining, and commercial interests of your
district.

As the Dominion now possesses exclusively the right
to manage our possal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail
steamer of a superior class to the one now plying on the
coast,—and also better mail facilities in such settlement;
and as I deem it to be of great importance commercially
where the most rapid means of transmitting intelligence between Namaimo and Victoria, I shall urge on
the Federal dovernment the importance of the early construction of a telegraph line to connect the two principal
towns in the Province.

The increasing importance of the commerce of the

towns in the Province.

The increasing importance of the commerce of the Oulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nausimo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in invitating the Gulf.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of tiovernment Agenta, where they may, with the assistance of the tiovernment, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

Hospital at Nanaimo, I deem to be deserving of serious consideration. The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to de to insure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The Fisheries along our coasts promise to become very profitable, and as the Dominion tiovernment has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your naterests to the best or my ability.

I have the honor to be, Gentlemen, your obedient servant.

Parliamentary Government.

It may be found well in practice to remember that the misrepresentations of those de-

Now I think you will readily admit that most civilized governments have succeeded pretty

well in securing the people against wrong from each other; but to secure them by laws against wrong from the government itself, a problem of a far more difficult sort, which few nations since the commencement of governments have attempted to solve. #### The Daily Standard. Wednesday, August 16, 1871. Civic Address to the Lieutenant-Governor.

Yesterday, at half-past one r. w., His Worship the Mayor, and Councillors McMillan and Heathorne, on behalf of the Corporation, waited upon the Lieutenant-Governor, (who received the deputation graciously) and presented the following address:

HIS HONOR JOSEPH W. TRUTCH, LIEUTERANT-GOVERNOR OF BRITISH COLUMBIA AND ITS DEPENDENCIES, STC., STC.:

will have a warm friend and advocate in all measures brought before you for the welfare and good government of this the Capital of British Columbia, the most western maritime city of the Dominion of Canada.

That with the experience your Honor has had in connection with the Government of the Province for years past, and finally in its union with the Dominion of Canada, we have no doubt that a new era will new dawn upon this country, and that wise measures will be introduced, which will be in accordance with the genius, the canabilities and the necessities

vince, that you may realize the satisfaction of having promoted the best interests of the country, and secured the esteem of the Goveroment and inhabitants of the Dominion at

W. HEATHORNE W. LEIGH, Town Clerk. Dated Council Chambers, 15th'August, 1871.

THE REPLY OF THE LIEUTENANT-GOVERNOR. Mr. Mayor and Gentlemen of the Municipal

Council of Victoria: I return you sincere thanks for the very kind and flattering expressions of welcome contained in your address, in reference to which I will not confine myself to the ordinary formality of reply, but will avail myself of this, the first occasion which is afforded me to say fully to you, and through you to our community at large, a lew words on some topics personal to myself, and on others of ore general interest, which I believe will not be considered inopportune. It is always a great happiness to me to find myself back once more at home in Victoria, and on this occasion of my return among you my position is greatly enhanced by the honorable position to which I have been appointed, and especially by the sentiments of good feeling and confidence with which you greet me, and which greatly strengthen my hopes of being useful to British Columbia in my new relations toward her, and give me good ground for the belief that I have not erred in accept.

To the United will frankly tell you that it was not until

responsibility which attaches to it. There were some considerations which presented themselves to my mind when this as likely to render my appointment not so acceptable to some in this country as that of any infermation they may require.

GILBERT GRIFFIN, office was most unexpectedly offered to me, prospect of successfully administering the affairs of the Colony.

I had much diffidence, too, of my own capacity and fitness for the new sphere of duty proposed to me, and especially in succession to our late Governor, Mr. Musgrave, to whose able and successful management our affairs this country is so much in-

Besides, I have never had any aspirations to such a position. The bent of my inclinaof my professional prospects, which were more congenial to me, and seemed to assure a more certain advancement of my material

personal interests. But it was presented to me, as clearly my duty not to turn away from my work in which I have been engaged as an agent for the past two years, and I have accepted the trust with the single desire to ensure to the utmost the success of British Columbia under Confederation, and in the hope that each one in our community, putting aside all past issues, would join in assisting my endeavors to that end.

You must, I am sure, have appreciated the compliment to British Columbia which has been intended in the selection of one of your-selves as the first Lieutenant-Governor of this Province; and if after the energetic steps which have so promptly been taken in the iniation of the railroad exploration and geo logical survey, in the establishment of a fortnightly mail service to San Francisco, in the assumption of our funded debt and discharge of all our local indebtedness, and in the other financial and departmental arrange-ments which are now being carried into effect in fulfilment of the terms of our Union agreement, there yet remain any in this com-munity who still doubt the good faith of the Government and people of Canada in their engagements towards British Columbia, they may take this appointment by the Dominion Government, of one of yourselves who has been so intimately connected with the nego-tiations of the terms of Union, as the representative of the Dominion in this Province, as an earnest of the determination and ability of that Government to carry out fully the spirit and letter of the obligations of those terms, and you may certainly be assured that if I did not unhesitatingly believe so, I should not occupy my present position. The fulfilment of those terms must insur

a large measure of advancement and prosperity to British Columbia, in which each member of our community may with reason

expect to participate.

But we must not suppose that the full fruits of Confederation are to be gathered at once, and without further effort of our own. On the contrary, the most material benefit of our union with Canada will consist in the facilities which in many ways will be offered us, for developing by our own exertion, the varied resources of our own country, and so enly may we British Columbians secure to ourselves the best fruits of Confederation. We must put our shoulders to the wheel, and working with a will, each and all together, raise our country to that position of impertance and value which her geographical posi-tion, her natural products, and her climate

Thoso who have known me best during my past official career, will I believe allow that I have consistently and faithfully served the Government to which I was attached. I return here now, prepared to serve, to the best of my ability, the interests of the people of Bratish Columbia; and if there are those who reflect that I have not favored the immediate establishment of the system of self government in British Columbia, they must perceive that having now undertaken to carry that system into operation in our Province, it is not only a matter of duty, but a point of honor for me to strive to the utmost to insure

its successful working.

I regret that under the peculiar transition state in which we now are, I do not see the practicability of immediately forming a responsible Ministry.

In the first place because there are no constituted to the constitution of the constitutio

The 15th of August was another gala day in Victoria, B. C., Dominion of Canada. It was selected by the Pioneer Society of this city, as the day upon which to hold its first picuic; the day they desire to, as it were, to introduce themselves to the people of this. Province. The choice was also made, as being the day upon which was very live to the people of the choice was also made, as being the choice was also made. introduce themselves to the people of this.

Province. The choice was also made, as being the day upon which many cities and towns throughout the civilized world—celebrate the Centenary anniversary of the birth of one of the most famous writers and poets in the world—Sir Walter Scott.

About the content of the content o

About one o'clock the people of the city began to hold themselves in readiness for the gathering at Medana's Grove. At this bour gathering at Medanals Grove. At this hour all the principal business houses of the town were closed; some bent for the picnic, some for the country to engage in shooting, fishing, &c. Flags floated grandly, the sun shone brightly, and many knots of citizens were seen sending their way, and driving to the

oncourse at the Grove.

The grounds were decorated with flags, but the speciality of the celebration was the pavillion in which the banquet was given. Never in Victoria did anything exceed this The building reminded one of the castellated dwellings of the time of Sir Walter. In the evening when it was lit up, the transparency looked grand. On either side of the archway-the entrance to the structure-were in cribed the works of the author of Waverley's Novels, the bust of the author being placed over the centre of the arch. Underneath was written, "Honor to Genius," and the letters "W. S.," (Walter Scott). The inside of the building was hung and draped with flags, evergreeus, and scrolls, the latter bearing the names of the most famous writers of the 17th and the two following centuries.

The next toast was "The Army, Navy, and Volunteers," which was proposed by Mr. J. A. Grahame. It was not responded to. The chairman then proposed the toast of the day, "The Memory of Sir Walter Scott." He said that they were met to celebrate the Centenary of the Illustrious Bard, Sir Walter Scott; it was an excellent day for celebrating it, and the only objection he saw to it was that it was not bis (Sir Walter Scott's) birthday. He believed that he was born in the same year as Napoleon and Wellington. The chairman spoke of the different styles of literature previous to the time when Scott-wrote the Waverley Novels, drawing a comworks were read by everyone that could read

English, throughout the world. The toast was received with enthusiasm.
"The Mayor and Corporation of the City" was next proposed by the chairman. The Mayor responded in a humorous speech, at the conclusion of which he proposed the toast of "The Pioneer Society of British Columbia," which was responded to in a very

able manner by the President of the Society, Mr. John Dickson.

'The Press," by Mr. Franklin, was proposed; responded to rather "vaguely" by Mr.

Seelve, of the Colonist. "The Ladies" was the next toast proposed by Mr. Good, who in a witty speech congratulated Victoria on the number, the beauty, and the elegant attire of the ladies present at the picnic. The glee "Here's a health to all good lasses," was sung. Mr. R. Ward returned thanks on behalf of the ladies, and said the day was not far distant when the ladies would take the responsibility of re-

turning thanks for themselves, leaving the bachelors "out in the cold."

Mr. R. Burnaby proposed the health of the chairman, expatiating upon his many virtues, and thanked him on behalf of the Pioneer Society for the kind manner in which he bad conducted the proceedings. Mr. Begbie re-plied; after which the company separated to join the dancing and the drawing of the prizes in the tombola.

His Honor the Governor got into his cariage and drove of the grounds. THE TOMBOLA.

The prizes in the tombola were called: No. 75; held by Miss Jungermann, won the first prize, a complete set of the works of Sir Walter Scott (very appropriate); the 2nd, No. 302, a gold ring; 3rd, No. 224, silver plated castor; the holders of the last mentioned tickets hadn't appeared. useful and valuable prizes were given,—a clothes wringer, presented to the Society by Mr. Dickson, amongst the many.

NEW SOUTH WALES. On the 5th of June, the Superannuation

Act Amendment bill was passed in the Lower House of the Legislature and transmitted to the Legislative Council, where it was read a thirl time and passed on the 20th of the same month. This bill to amend the Superannuation Act of 1864, has met with much disfavor among the civil servants of New South Wales, who for several years past have been called to pay into the Superannuation Fund a considerable proportion of their incomes. The amendment in the bill provider for a very great reduction in the rates of pensions to the civil servants. The civil servants held meetings, presented petitions, and did all that was in their power to oppose the bill. The Estimates have been passed by the Committee of Supply without much discussion. On the 12th of June £30,000 were voted for the fortifications and defences o Port Jackson: and in the course of the discussion on the vote, it was stated incidentally hat this would include an item of six 18-to Armstrong guus, to cost £3,000 each, that had been ordered from England to the order of the Colonial Government. On the 22nd of lune both Houses of Parliament were officially prorogged by the Governor till the beginning of the month of August.

VICTORIA. Early in the mouth of June the financial debate engaged the attention of the Victorian Assembly. The tariff submitted by the Gov ernment was loudly protested against by the mercanti e interest of Melbourne. Mr. Lang-ton, who is recognized as the leather of the Free Trade party, made (what has been de-nounced by several Victorian papers as a fasco) an independent motion in the Assembly which was tantamount to a vote of want of confidence in the Government, which he afterwards withdrew. On the 21st of June the Lower House was adjourned till the 25th of July. The McCulloch Ministry has since re-signed, being unable to carry through the House the measures proposed by them; and to Mr. Duffy was given the task of forming a Ministry, and the following were some days afterward sworn: Mr. Duffy as Chief Secretary and Postmaster, Mr. Berry as Treasure of Customs, Mr. Grant as Minister for Lands, Mr. O'Grady as Minister for Works, Mr. Mc-Lellan as Minister for Mines, and Mr. Spensely

has as yet been appointed. The report of the Victoria Educational Board has been recently issed. The cost of education to the Colony is put down at 7s. lud. per head of the population.

The report claims for the teachers of the Victo is schools a higher degree of efficiency than that possessed by the teachers of Great Britain and Ireland. The Grand Victorian Northwest Canal pro-

ectors are pushing forward their scheme with much enterprise. The press deffers in opinion as to the answer of the Home Government to the request of New South Wales, for the annexation of the Fiji a British Consul being invested with magis-terial powers; urges the Australian Govern ment to form a joint protectorate over the Fijis, which shall take the Government into its own hands. Should this not be carried ont, the best plan, it thinks, would be for the various colonists in Fiji to form themselves

nto a republic.

Several petitions were sent in to the Col-onial Legislature, early in June, from the Darling Downs District, in favor of railway extension, and this subject, as it affects, one or other of the districts of the Colony, is the cry almost from one end of Queensland to the who were supporters of the Government party. The deputation aided Sir Maurice to for business not later than a month thence. Petitions with the same purpose were largely signed. The consequent position of the Acting Governor (Sir Maurice O'Connell), the Marquis of Normandy being shortly expected -was felt to be a very critical one. On the 16th of June, the Legislative Council, on the casting vote of the President, adjourned till tue 5th of July ; on the 25th a Gazette Extraordinary was issued, dissolving Parliamen

and the Queenslanders are consequently mak-ing preparations for a general election. Police Inspector Gilmore, who had been for some time engaged in searching for the re-mains of the ill-fated Australian explorer, Leichardt, found in his researches what were plied for a license for the Boyal Oak, instead at first imagined to be the skeletons of Leichardt and one of his party. A report was lately presented to the Queenslan Assembly, by the Colonial Secretary, which had been furnished by medical men who had examined the remains found by Inspector Gilmore. The surgeons agreed in the opin ion that one portion of the remains were those of an adult aborginal, while the remainder were those of a much younger black.

A report that has been laid before the It is estimated that there are now facilities for loading 40,000 tons of coal per week at Sydney.

The proportion of the insane to the population of the colony is said to be 1 in 389, as compared with (in 1868) in England, 1 to every 411; in Scotland 1 to 354; and in Ireland, 1 in 345.

From the last annual report (lately published) of the Postmaster-General of the Colontain and the colon tributed by the needle of Gympie.

A despatch from the Secretary of State for the Colonies, in reference to a request emanating from a public meeting held a few month ago in Sydney,—that Great Britain should annex the Fijis appears to the Colony of New South Wales, gives as reasons for declining to do so, "That the state of affairs in the Fijis appears to have so far changed since 1860, when, after a full enquiry by Colonel Smythe who was sent out for the purpose, Her Majesty's Government determined not to annex the Islands; that there is now in the Islands a much larger European community and therefore more able to protect itself and provide for its own government, but otherwise the same difficulties remain; that the Islands are under the jurisdiction of several chiefs, and even if they all concurred in an act of cession to the Queen, the experiences of other Colonies shows that disputes would be sure afterward to arise, especially as to the occupation of land by the settlers; and that South Wales, gives as reasons for de occupation of land by the settlers; and that it would be impossible for this country to

undertake the responsibility of the govern-ment of the Islands without a sufficient force to support its authority, and Her Majesty Government are not prepared to station military force for this purpose in the Fijis."
The despatch, in conclusion states "that Her
Majesty's Government will, however, be ready to give such aid as may be in their power through the British Consul in the Fijis, for the maintenance of order until the Eu community can establish a regular govern ment ; and that they (the Government) are

north-eastern entrance or exit from the Fijian group, and through which a line of steamers from Australia to San Francisco, via Fiji, would necessarily bave to pass, is being surveyed by Lieutenant Woods and a staff of assistants. His report is considered to be on the whole favorable. He says that there is a fine broad strait, sufficient for all purposes, and denies the existence of a dangerous rock,

The Fijian residents are gratified at the establishment of the Australian and Californian line of steamers via Fiji.

The City of Melbourne was warmly wel-

omed at Levuko on the morning of the 12th of May. On the 15th of May there was a fight at the back of Ovalan between a party of Thakom-ban's men and Livonis, the latter overpowering the former by weight of numbers.

A number of statistics have been published with the view of showing the progress and activity of the Islands; the returns are for the months of January, February, March and April (1871), months in which the commer of the group is understood to be in a great measure suspended. In the month of April 18 ve-sels arrived, with an aggregate tonnage of 2,181, and 13 vessels departed with an aggregate tonnage of 1,578 tons. The ex-

There was an increase to the population in the month of April, 1871, of 87 males, 23 females, and 34 children. Two bundred persons arrived during the month and 56 left. The coal trade has been rendered more brisk by the receipt of large orders from the East and from California. For the latter market the Birer Lune with 1,670, and Thomas S. Stowe with 755 tons, have cleared. The Rajab and Annie Size are now loading here. The St. John, Agate, Calbeck, Flying Eagle, Old Dominion Helios and Intrepid are chartered to load at Newcastle for the same

destination.
